

Maternity Contract Position - Senior Sleep Scientist:

Peninsula Sleep Clinic is an accredited private six bed sleep laboratory located in Frenchs Forest, Sydney. We are currently looking for an experienced Sleep Scientist for a maternity replacement role with potential opportunity for further employment at the end of the contract.

The advertised role is to cover the Clinic Manager's role whilst she is on maternity leave. Suitable candidates will be able to adapt quickly to a new work environment and manage time and workload efficiently. The successful applicant needs to have excellent communication, organisational and interpersonal skills (liaising with both patients, sleep physicians and staff) and work well as part of a small team. An easy-going positive attitude with honed problem solving skills and attention to detail are a must.

Responsibilities would include but not limited to;

- Quality control and auditing of polysomnography recordings, analysis and report generation.
- Managing verification and technical problem resolution of polysomnography equipment including managing repairs and equipment registers
- Managing technical and registered nurse staff for setup and overnight monitoring.
- Generating rosters for daytime, evening and night staff and managing sick and holiday relief cover.
- Managing and participating in in-service training program and external scoring proficiency.
- Some sleep studies analysis (Diagnostic, CPAP, NIV, MSLT and MWT).
- Managing and ordering of Sleep Laboratory stock.
- Occasional evening polysomnography cover.
- Participating in Management Review Committee meetings and reporting to the Business Manager and Medical Director to effectively coordinate operations of the Clinic.

Essential Skills:

- Compumedics Sleep System – Graef, Somte PSG
- Excellent computer skills
- Outlook, word, excel proficiency
- Experience with ResMed, Philips and Fisher and Paykel PAP devices and masks

Education:

- It would be desirable for the candidate to have Bachelor in Science or equivalent and/or RPSGT and at least 5 years' clinical experience in a Sleep Laboratory including some management experience.
